February 20, 2025

To U.S. Fish and Wildlife Service employees, we appreciate your continued dedicated work to conserve, protect, and enhance fish, wildlife, plants, and their habitats for the continuing benefit of the American people. We continue to be your partner in achieving this agency's mission and are here to support you.

To our U.S. Fish and Wildlife Service colleagues whose employment was terminated on February 14, 2025, we value you, your enthusiasm, passion, commitment and public service. We are deeply disturbed and saddened by the sudden, indiscriminate terminations and the severe impacts they have on you and your families. Please take care of yourselves and take advantage of services provided by various organizations providing accurate information about your rights and benefits. This Association is deeply concerned about your welfare. For generations, our agency has operated as an "extended family", caring for each other as we care for the Nation's fish and wildlife resources. If you have an interest in making connections with others who have worked with the Service and would like to be part of an external effort to support the Service mission, we would be pleased to welcome you to join our Association.

To members of this Association of Retired U.S. Fish and Wildlife Service Employees, please keep all employees and former employees in your thoughts and reach out as you can to support them.

Board of Directors
Association of Retired U.S. Fish and Wildlife Service Employees

The Association of Retired U.S. Fish and Wildlife Service Employees is a 501(c)(3) nonprofit organization. Your contribution is tax-deductible to the extent allowed by law. No goods or services were provided in exchange for your generous financial donation.
